I.R.C.C.S. (Scientific Institute for Research, Hospitalization and Health Care)

Engineer Project Collaborator

Analyzing the effects - in terms of efficacy, effectiveness, economic sustainability and organizational impact - of the adoption of a "fast track" process proposed in order to selected patients undergoing hip and knee arthroplasty surgery compared to a "standard" path.

From May to September 2019

SEUS SCpA – Sicilia Emergenza Urgenza Medica | Palermo, Italy

Sicilian Emergency Medical Service – 118. Ambulance transportation

External Consultant supported by Robert Gordon University (UK)

Internal Benchmarking Analysis from managerial perspective

From May to November 2016

General Electric Healthcare | Milan, Italy

GE Company's division, concerning supply of health care solutions/products/services

Thesis Intern

Internal Audit about Business Process

From September 2024 to date

Erasmus University of Rotterdam | Rotterdam, Netherlands

Erasmus School of Health Policy & Management

Visiting Scholar (PhD Candidate)

Conducted a comparative study of healthcare accessibility in rural areas across three Western European regions (Cornwall, Zeeland, and Sondrio). Focused on analyzing organizational frameworks in primary care, measuring accessibility, efficiency, and quality through both quantitative and qualitative methodologies. Responsibilities included designing the research methodology, conducting exploratory interviews with key healthcare stakeholders, gathering and analyzing data from public health databases, and contributing to the development of healthcare policy recommendations.

From December 2022 to date

Università Carlo Cattaneo - LIUC | Castellanza (VA), Italy

PhD course in Management, Finance and Accounting

Mandatory courses ended. Principal investigation: Organizational Design in Organization Studies. Research in hierarchy, flat organizations, less-hierarchical research.

From 2016 to 2020

Università Carlo Cattaneo - LIUC | Castellanza (VA), Italy

Master's Degree in Management Engineering for Industrial Production – Specialization in Healthcare System Management. School of Industrial Engineering

Analysis, design, implementation, validation and management studies, focused on healthcare systems

Experimental thesis (paper research + questionnaires and interviews administration + management tools implementation) concerning the global, national and regional analysis of the actual situation of the Emergency Medical Services. Final part focused on a benchmarking study of Lombardian and Sicilian 118 Emergency Services.

110L / 110 - Graduated with Honours

From 2018 to 2019

RGU - Robert Gordon University | Aberdeen, Scotland (UK)

Master of Science: International Business

Developing an understanding of emerging trends and issues in international business, such as the importance of emerging markets, the quest for sustainability and global innovation

A - Graduated with Distinction

- Dates
 - Name and type of organisation providing education and training
 - Principal subjects/occupational skills covered
 - Final grade
